PROFILE

I am a final-year engineering student. I started learning UI/UX design in January 2023 and have learned a lot in the course of my learning journey. I've created redesigns from popular Dribbble designs, tried redesigning the letterboxd landing page, and recreated a ticket booking app design. I am also learning through design challenges by being consistent and designing for 30 days. Every day, I am excited to learn and try new things in design. I have a drive for designing User Interfaces and I love doing it. I want to pursue it as a career. I feel that I need to explore more and this can be done only when I work in the industry. Hence, I am looking for internships to build my portfolio and gain experience

WORK EXPERIENCE

Intern - Android App Development

NSIC - Chennai

April, 2022

- I joined this internship to learn Java and Android App Development
- In the internship period, I did a few projects including Video Player, Calculator, QR scanner and generator.
- Though this was an App development internship, I wanted to do more on the UI side.
- At that time I was focusing on the functional part but the UI looked very bad and it lead me to learn about UI

Intern - Android App Development

Irohub Infotech - Kochi

July, 2023

- In this internship I showed interest in building apps with good UI.
- I learnt html and css to build good UI for XML files

UI/UX EXPERIENCE

- I started learning UI/UX designing from January 2023. I have been learning wireframing, designing, auto layout, and prototyping. I have implemented these in the following projects
- 1. Letterboxd App UI Redesign - [Click Here](#)
- 2. Movie Booking App UI Redesign - [Click Here](#)
- 3. Zomato Order Placing UI Redesign - [Click Here](#)
- 4. Music Player App UI Design - [Click Here](#)
- 5. Payment App Login UI Design - [Click Here](#)
- I further want to increase my experience and learn new things hence I am looking for internship opportunities
